NOT THE WILL OF THE PEOPLE.

When one considers the elaborate precautions adopted by the Sifton government to hold the recent seats thrown open to test the voice of the people, it is marvellous that the majorities were so small. The vote, taking everything into consideration, was a decided moral victory for the Conservatives in the south, as a turn of about seventy votes would have redeemed both ridings.

Who ever heard of a cabinet minister, returning for the consent of his people, being defeated, and yet Hon. Malcolm McKenzie only escaped by 21 votes.

So great a shout has been made by the Liberal press regarding the elections that a few facts will not be out of place.

Four of the five seats were represented by cabinet ministers. These four seats were the strongest Liberal ridings in the province.

Two of them, Claresholm and Sedgewick, were the two largest spring wheat growing constituencies in the province, and consequently were stronger in favor of reciprocity, and this cry was introduced into the provincial elections for all its worth, although it had nothing to do with provincial matters.

And finally in Claresholm, Sedgewick and Sturgeon are to be found experimental farms under control of Hon. Duncan Marshall with all that that implies.

Is it any wonder that these constituencies returned followers of the government?

We contend that for months preparations have been going on in these ridings to defeat the will of the people. Every stone a discredited government could turn to help along its candidates was turned, and even then they were nearly defeated in two of the ridings.

If a general election had been resorted to, if the people of the province had been allowed to give their verdict, we believe Edward Michener, member for Red Deer, would today be Premier of Alberta.

CANADIAN TRADE.

The total trade of Canada for the fiscal year ended March 31 amounted to \$862,699,732, an increase of no less than \$103,605,343 as compared with the previous year. Exports showed an increase of nearly eighteen million dollars. The increase in agricultural products alone was approximately \$24,510,000.

Canada is not yet in the fore ranks of manufacturing countries, but the increase in exports of manufactures was around half a million dollars. The year's increase in trade as a whole was fourteen per cent., which is one of the largest, if not quite the largest, in the history of the Dominion.

The very substantial increase in agricultural exports is gratifying in view of the pessimistic predictions of the pro-reciprocity politicians and organs. The Canadian farmer has not had to surrender the home market in order to find purchasers for his products. He has not been compelled to give up the substance of a steadily increasing export trade for the shadow of a market in a country which is producing more than it consumes of the very product which the Canadian farmer has to sell.

RAILWAYS MUST BE BUILT AT ONCE.

The staunch Liberal paper, the News-Plaindealer, of Edmonton, has this to say, after the late bye-elections of course:

It is impossible to speak too strongly of the need of more railways in Alberta. The systems which have had guaranteed bonds from the governments in the past have had altogether too much consideration in the matter of building. Delays in construction work have been the rule rather than the exception, and the province stands today far behind the point where it should have been had the transportation systems been required to carry out the original terms of their charters. In the light of yesterday's verdict we can not see how delays can be tolerated in future on the government's railway programme. We believe that it is the intention of Premier Sifton and the other members of his cabinet to see this railway expansion crowded forward with all expedition. We are also convinced that to again grant the companies their own time in which to carry on the development work would be to commit political suicide on the part of the present administration.

RED DEER MUST PROSPER.

The Financial Post says: The basis of Western success is the farmer. Capitalization in advance of the farming community is "over-speculation," and the warning given by the Financial Post should go home to every Western business man and teach him that he is most certainly putting the cart before the horse. Let him, in whatever centre he may be, confine his own and control the energies of as many others as he lies in his power to the furthering of legitimate lines of the success of the farmer in his community and his town will take care of itself whilst others of "mushroom growth are falling into desuetude."

Red Deer's prosperity is in a large measure due to the prosperity of the farming community surrounding it. Our large Jersey herds cannot be equalled in the west, our Ayrshires always lead at the shows, our Holsteins are unsurpassed, our dairying industries and cheese factories are ahead of anything in the province, and our farmers are up-to-date, enterprising and prosperous. Red Deer must prosper as her rural population prospers.

GOVERNMENT MUST ACT.

The government, now that the bye-elections are over, should get busy with the railways, whose lines have been guaranteed, and make them rush construction. In the South lines have been guaranteed since 1908, but very little, if any, construction has been undertaken. The railways need to be jerked up with a tight rein, and made to understand that they must hustle, and carry out their obligations. The South is getting impatient and, to be candid, the government will suffer severely unless the guaranteed lines are built hastily.—Lethbridge Herald.

Councillor W. J. Botterill in his month organ, the Advocate, takes the editor of The News to task for stating he was opposed to the motor truck from the very first. Any person can see Councillor Botterill's motion in the Council proceedings. When he could not get a second opposing submitting the by-law to the people, he insisted on having his name placed on the records as opposing it anyway. The editor of The News is not two-faced nor is he afraid to express his opinions. The first

night the by-law was brought up we were in doubt as to the advisability of the by-law. Councillors Galbraith, Malcolm, Byers and Botterill were all in the same boat. The Mayor supported it, while Councillor Botterill opposed it, both these gentlemen having studied the question previously. When we gave the question any thought we decided to support it. We have no reason for attempting to place Councillor Botterill in a wrong position. We dealt with the facts as brought forward by him in the Advocate in opposition to the by-law, in what we considered a friendly spirit. We have no apology to offer for doing so.

Councillor Botterill takes himself just a wee bit too seriously.

Liberal papers about every other day come out some story about what Mr. Borden is or is not going to do on the navy question, and then they start in to pummel the idea into infinitesimal atoms. This sort of thing seems to please them, and as it does nobody else any harm, why there is no special kick coming. The fact of the matter is Mr. Borden has not as yet given out any naval policy, but when he does it will be in accord with the large majority of the people of Canada.

The Grit Edmonton Bulletin says farmers of the west lost \$20,000,000 last year through the defeat of reciprocity. How shocking! That means that the Grit government during the fifteen years they were in power robbed, deliberately robbed (because they seem to know the exact figures) the farmers have been robbed off the farmers of fifteen times twenty million, or \$300,000,000 in all. We think it is about time the Grits hiked for the tall timber.

Solid Sleeping Car Train.

C.P.R. Introduces an Innovation in Canada on Line Between Winnipeg and Vancouver.

Winnipeg, May 28.—Announcement was made this morning of the new C.P.R. time card, which will go into effect June 2. While the service introduces a number of alterations in the present schedule, the most noticeable is that in connection with the Imperial Limited, both east and west-bound.

After June 2nd the Imperial Limited between Winnipeg and Vancouver will consist of sleeping coaches only. This means that passengers wishing to travel in coaches to places between these points on the night train will have to go on No. 61, west-bound, which will leave Winnipeg at 10 p.m., one hour ahead of the Imperial Limited.

The same arrangements are effective on the east-bound from Calgary. This is the first solid sleeping car train to run in Canada.

Gets a Life Sentence.

Homesteader Just Out of Prison Attempted to Kill the Complainant. Who Was a Neighbor.

Medicine Hat, May 30.—J. J. Lawson, homesteader, was given a life sentence by Chief Justice Harvey on a charge of attempted murder. Lawson and a man Harpell were neighbors on homesteads south of Seven Persons.

The former had just finished a term of imprisonment in a fraud case in which Harpell was the complainant. Lawson seceded himself in Harpell's barn and when he came in the morning to get hay he shot him in the head with a revolver. Neighbors surrounded the barn until the mounted police arrived. Lawson surrendered without any trouble. The bullet was extracted from the base of Harpell's skull. He will recover.

Prepare To Entertain Alberta-B.C. Editors

Pleasant Excursions Arranged from Nelson for Visiting Scribes

Nelson, B.C., May 28.—Excursions to the Balfour Tourist hotel, Kootenay and the Blue Bell mine on Kootenay lake, for which the C.P.R. steamer has been chartered, is the chief entertainment for the final day of the visit here of Alberta and Eastern British Columbia Press association, July 25-27. On July 26 the visiting editors will be taken to Kootenay lake, where the Kootenay river, whence side trips have been arranged to the famous fishing pool at Sloan junction and to the Granite Point mine. At Bonington falls are the city and west Kootenay Power and Light company's power plants. Launch trips on the Kootenay lake, a concert in Lake Shore park, which will be lighted with electric lanterns, are also being arranged.

"News" or Facts

In the light of results, the following article taken from the Financial Post should be of interest to independent people in the west. Since

last fall Liberal papers, for purely political purposes, have been continuously harping on the great disaster to the farmers of the west, and never losing an opportunity of blaming the government at Ottawa for the same. The article in question reads as follows:

A prominent Ontario manufacturer told the Financial Post some weeks ago that he relied upon the Western news of The Financial Post more than upon that of any other Canadian paper. This expression of confidence is easily justified by reference to The Post's columns during the past fall and winter, when there was so much difference of opinion as to conditions in Western Canada.

Beginning with November, the Post announced damage to the Western crops, but stated that taking all together the country had nothing serious to fear from the damage which was being done in many parts of the West—the lakes district. The gist of The Post's news through December, January and February is given in The Post's headlines on February 3, when it said: "Reports of Sudden Crop Calamity in West True." In that issue the Post said: "In other words, as the Post has before stated, the West has already marketed a very large crop and the part to which damage is being done now is, practically the surplus portion. Taking the West as a whole, whatever is saved now is clear gain, although, of course, when individuals are considered, some growers will sustain heavy losses where they hoped for profits."

On Feb. 10 The Post stated that "the present situation does not warrant the present calamity talk." In that issue the Post stated that newspaper stories that thirty million bushels of wheat were frozen and that thousands of cars were blocked on western lines, were "much exaggerated."

Later in February, The Post denied that collections from Western Canada were more worse than in other parts of the country, and that wheat was abundantly corroborated later. In February also The Post took issue with Mr. R. W. Babson's statement which foretold a "great crash" in Western Canada within two years. The Post in that issue pointed out the dangers in the Canadian situation, but added that if Canada is reasonably careful, the danger need not be serious. In its March 2 issue The Post summed up its conclusions on Canadian conditions by saying that "Bankers and others close to the pulse of the nation see no real danger ahead. So far as Canada is concerned, conservation is all that is necessary to assure continued prosperity."

The Post took this position through the year in contrast with often-repeated stories from the West as to the great seriousness of the Western crop damage, and its probable grave effects on the country in general. The Post's attitude did not, perhaps, make such good news, but it did give the business men and investors of the country a much more accurate idea as to the actual status in the West.

A Money-Back Hair Grower and Dandruff Cure

Read what Mrs. H. Lawrence, 158 W. 17th Street, Holland, Mich., writes about the marvelous results obtained from the use of Parisian Sage, the celebrated hair tonic, which is now on sale all over Canada.

"For several months my hair had been falling out, and dandruff also appeared. I used some so-called hair tonics and renewers, but never received any relief from the scalp disease until I procured Parisian Sage, and used it for about two weeks. Parisian Sage made the hair stop falling out, and caused it to grow in quite heavily, stopped the dandruff, and made the scalp cool, clean, and comfortable. It also leaves the hair silky, and does not make it stiff or sticky. I endorse the use of Parisian Sage. It is all right." October 30, 1908.

Gaetz-Cornett Drug & Book Co. are the agents for Parisian Sage in Red Deer, and they think so well of it that they guarantee it to cure dandruff, stop falling or splitting hair or itching of scalp, in two weeks, money back. It will also grow any woman's hair soft and luscious in a few days. Price 50 cents a large bottle at Gaetz-Cornett Drug & Book Co. or direct, at all drug stores. Sold from the Canadian makers, the Giroux Mfg. Co., Fort Erie, Ont.

Wilbur Wright is Dead; Pioneer of Air Navigation

Passes Away at Home in Dayton from Typhoid Fever.

Dayton, Ohio, May 30.—Wilbur Wright, the noted aviator, died this morning of typhoid fever. Death came after an illness of about three weeks.

A sinking spell developed soon after midnight, and death came at 3:35 today. Wright had been near death for many days, and though his condition from time to time gave some hopes to members of his family, the attending physicians, Drs. D. F. Conklin and Levi Spiller, maintained throughout the latter part of his sickness that he could not recover.

When the patient succumbed there were at the bedside members of his family which included his aged father, Bishop Milton Wright, Miss Catharine Wright, Orville, the co-inventor of the aeroplane; Reuchlin Wright and Lorin Wright. All of the family reside in this city, except Reuchlin, who lives in Kansas.

The patient was seized with typhoid fever May 4, while on a business trip in the east. On that day he returned to Dayton from Boston and consulted Dr. Conklin, the family physician. He took to his bed almost immediately, and it was several days before his case was definitely diagnosed as typhoid.

Arrangements for the funeral had not been completed early today.

HIS CAREER.

The late Wilbur Wright, aeronaut, was born near Millville, Indiana, April 16, 1867, and was the son of Milton Wright and Catharine Koerner. He was educated at the high schools in Richmond, Indiana, and Dayton, Ohio, for four years, and at Earlham college he received the degree of B.S.

Since 1903 he has been with his brother, Orville W., devoting much of his time to heavier-than-air flying machines, which have been patented by Wright Bros. in many leading countries of the world. He has made wonderful flights in the United States and abroad, and sold a machine to the United States government for \$30,000. He was awarded the gold medal by the French Academy of Science in 1909, and also many others. He was a member of the Aero club of America and was unmarried.

WIPED OUT BY CYCLONE.

Tulsa, Okla., May 28.—The town of Skiatook, fifteen miles north or here, is reported practically wiped out by a cyclone. Fourteen persons are reported killed and many more injured.

Bulls Bring Good Prices at Lacombe

Short-horns Mostly in Demand and Many More Could Have Been Sold.

Lacombe, May 29.—The annual sale of pure bred bulls held here today was one of the most successful yet held. Buyers were on hand from all parts of the province, and British Columbia and bidding was brisk.

Every animal catalogued was sold, and prices were higher than at any previous sale. In Herefords, O. Palmer's Alberta Hereford topped the list at \$185, the average price for all Herefords sold being \$155. There was a great demand for Short-horns, many intending buyers being unable to secure animals. P. A. Switzer's entries headed the list in this class, four animals selling for \$175, \$195, \$235 and \$190 respectively. The average for all Short-horns put up was \$170. Fifty additional bulls would have had ready sale.

The demand for Aberdeen-Angus, Ayrshires and Holsteins was not very heavy, although all entered found buyers. James Harrison, of Hotha, was the buyer of the highest priced animal, he paying \$235 for one of P. A. Switzer's Short-horns. S. W. Paisley was the auctioneer, while E. L. Richardson and President James Walters looked after the interest of the Alberta Stock Breeders' Association.

Real Estate

At the annual meeting of the Imperial Bank, the President, Mr. D. R. Wilkie, warned his shareholders and the public at large against indulgence in real estate speculation.

His words bear repeating in full: "The extraordinary advances in the prices of city property not confined to any one Province is alarming. From Pacific to Atlantic values have advanced 200 per cent., 300 per cent., 400 per cent., and even 500 per cent. Enormous profits have been realized and enormous obligations incurred. How and when the rise in values is to end it is impossible to say, as even sober, level-headed financially responsible men are amongst the most enthusiastic speculators. Bankers find it difficult to prevent customers engaged in legitimate pursuits using their commercial credits in the purchase of land for which they have no legitimate use. I should not be at all surprised to find of failures and delinquencies as a result of speculation in real estate, and of a waste of capital which must result from the investment of borrowed money in ventures that bring in no immediate revenue, the reinstatement of the invested capital in legitimate business being dependent upon realization at still higher figures than cost."

Ladies of Culture and Refinement Use Salvia Hair Tonic

It Makes the Hair Beautiful.

At last a remedy has been discovered that will positively destroy this pest.

That dandruff is caused by germs is accepted by every sensible person. Dandruff is the root of all hair evils.

SALVIA will kill the dandruff germs and remove dandruff in ten days, or money back. Gatz-Cornett Drug & Book Co. guarantee it. It will grow hair, stop itching scalp, falling hair, and make the hair thick and abundant. It prevents hair from turning gray, and adds life and lustre.

SALVIA is a hair dressing that has become the favorite with women of taste and culture, who know the social value of beautiful hair. A large, generous bottle costs only 50c at leading druggists everywhere, and in Red Deer by Gatz-Cornett Drug & Book Co. The word "SALVIA" (Latin for Sage) is on every bottle.

Clearing Out Our STOCK

OF FANCY GOODS

At PRICES that will make them move.

We are compelled to do this on account of lack of room. We will have to discontinue our Xmas business in this line for this year: Brass goods, Dressing Cases, Travelling Cases, Desk Sets, Jewel Cases, in fact everything of this sort must go.

We are going to make a clean sweep. We will sell at cost, and in some cases below cost. We need the room, our other lines are becoming overcrowded.

"GETTING READY" TO BUY A HOME

Is usually a matter of getting in the mood to have a home.

What we want we secure.

The man who wants a home of his own twice as earnestly and enthusiastically as you do, will get it twice as quickly as you do.

We serve people who are no more "ready to buy" than you—except that they are perhaps a little more eager to buy.

When your wish so soon a home grows strong enough to send you here to talk it over with us, quite likely you're really "ready to buy."

We have two cozy, comfortable homes for sale, 6 rooms, exceptionally well built. A small cash payment will secure one of these PRETTY HOMES.

Wedding at Marianne

On Saturday, June 1st, Yorkville, Marianne, was the scene of a very pretty and happy wedding when, in the presence of a few particular friends of the bride and bridegroom, the Rev. E. G. Heaven united in the bonds of matrimony Mr. R. York, Jr., one of his province's best men, in the work of church organization in the Medicine River district, and so well known in the west country, to the charming Miss Beatrice Booth, who has lately arrived from Manchester. This wedding witnesses the union of two old and well known Manchester families and is followed by the good wishes of a large circle of friends in England, Canada and Australia, many of whom have testified to their good wishes for the happy couple by valuable and beautiful presents. The bridemaid was Miss Bertha Goodwill, who accompanied the bride from Manchester. Mr. R. H. Jones, late of a general store, gave the bride away, whilst the groom's best man was Mr. W. Black of Kinnaird. Notwithstanding the desire to keep the event as quiet as possible, some members of the community, chiefly composed of the younger element, determined to share in the occasion by forming a serenading party which awoke the echoes in a most vigorous manner, and were rewarded for their exertions by sharing in the bride's cake, which was a present from Old England. On Sunday evening at the Church of English service, in the school house, the event was marked by the congregation joining heartily in the singing of the wedding hymn "The Voice Which Breathed O'er Eden."

Leslieville

The box social held in Leslieville school house on May 31st was a great success. A good crowd turned out and a splendid programme was given. The sum realized from the boxes was sixty dollars.

A very sad accident occurred at this place on Saturday eve, June 1st, when an Italian working on a garage fell off and was instantly killed. The remains were interred in the Leslieville cemetery on Sunday.

Mr. McLean, Presbyterian student, conducted the funeral service.

Don't forget the great day here on July 1st. Watch the baseball team, Edward Wilson was out here this week looking up old friends.

Wm. Huskins, Dominion Fire Ranger, has been up here lately and intends keeping his eye on careless smokers.

The Leslieville townsite has been put on the market and is booming rapidly. Lots are being sold every day. Come early and get a good one, there's plenty of them. McKinnon Bros. are local agents for the lots. Terms easy.

Mr. Wm. Stockwell is building a new residence near the Prairie Rose school.

R. F. Sheppard has gone for a trip to Mexico. His son Sam Sheppard has also taken a trip to Idaho and expects to return shortly.

Correspondence

Dear Mr. Editor,—
In justice to yourself and the members of the Council, I think it only right that one reply should be made to that self-satisfying epistle of "Councillor Botterill" in last week's "Advocate."

It is only natural that every right thinking citizen as well as ratepayer, should oppose the motor apparatus by-law or any other money by-law until they are satisfied that the expenditure is wise and economical.

If any one should be in a position to give information regarding the apparatus it should be by itself; it is my business and what I am paid for. This information was given, but by reading one letter from the Southern States, as I have not got such a letter to read; besides which our Councils have too much sense to be converted by such letters. After a week's consideration all the Councilors but one decided that there were so many arguments in favor of motor apparatus they were in duty bound to submit this by-law to the ratepayers to be voted on. The Councilors are to be commended for this action, and demonstrate that the confidence of the people in them has not been misplaced.

Yours truly,

H. MEERES.

THE BY-LAWS.

Friday night a public meeting will be held in the Oddfellows' Hall to discuss the by-law now before the people. Every property owner should be present and hear the discussion. The vote takes place on Monday next.

REFRIGERATORS

A NOTHER luxury that every family can enjoy today that a king could not a hundred years ago.

If you are not using a refrigerator, one of ours will save enough food in a season to pay for itself, to say nothing of the satisfaction of having better things to eat.

If you are using an old Ice Box (ice burner is a better name) one of our refrigerators will save you enough in ice bills to pay for itself in a season or two, besides unnecessary trouble and work, and keep your food better and longer.

Our line of refrigerators is complete and it will pay you to examine them.

The Wise Man's Opportunity

Come often in Red Deer because he sees it. The foolish man never has an opportunity because he refuses to see it. It is always a matter of sight—eyesight, insight and foresight.

Week by week we have in this space submitted many propositions to the public. To the unthinking reader they have meant nothing. To the wise and intelligent reader they have meant opportunity in large capital letters.

Therefore wise and intelligent readers have seen and seized their opportunities and are today satisfied investors and some of them have already reaped their harvest.
